## FOREWORD

This Exhibition, composed of original woodcuts by twenty-one contemporary Japanese artists, gives those visiting the Art Center's Galleries an opportunity to observe works by a number of the foremost print makers of the present day. The range of subject matter and the personal quality to be found in the prints created by the individual artists make for an exhibition of unusual interest and importance.

Owing to the fact that the majority of the prints included in the exhibition are fundamentally modern in concept and execution, the realistic factors of the subject matter are rarely emphasized; the result being that the actual three dimensional, color and textural factors of the objects included are conceived and executed in terms that are based on the individual artist's imaginative concept of the subject at hand.

All items included in this exhibition  
are woodcuts
